## GUIDE DES TAILLES

Afin de recevoir le bijou qui correspond parfaitement à vos formes, nous vous conseillons de bien vérifier les tailles choisies avant de valider votre commande.

Voici quelques conseils pour vous aider dans le choix de vos bagues.

Pour le choix de la taille, veuillez télécharger et imprimer le baguier en taille réelle.

Attention: l'impression en taille réelle est indispensable pour éviter les erreurs !

Posez votre bague sur les cercles à la recherche de la taille correspondante.

En cas d'hésitation entre deux tailles, n'hésitez pas à prendre la plus petite.

Pour les bagues large de type Yseult, veuillez à prendre deux tailles en plus de la vôtre. Par exemple: si votre taille est 52, il faudra prendre un 54.

Les bagues pour femmes sont déclinées de la taille 47 à 55. Pour toute taille hors standard: nous consulter.

## SIZE GUIDE

*In order to receive the perfect fit, we recommend you to verify ring sizes before ordering.*

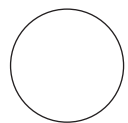

*To help you select your ring size, please download and print (to scale) the following template.*

*CAUTION: You must select the «None» option under page scaling in your printer settings to avoid mistakes!*

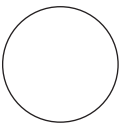

*Place your ring on the circles to select the right size. If your ring sits between two sizes, don't hesitate to take the smaller one.*

*For larger rings such as 'Yseult', please add 2 sizes to your true size. For instance: if your size is 52 you will need a 54.*

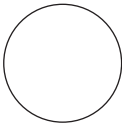

*Women's rings are produced from size 47 to 55. For any other nonstandard size, please contact us.*
